

Ring of Fire

Skills:

Judging weight, especially inside the Hog.
Late Sweeping for Plan B.

Description:

The 4 foot is an island surrounded by lava called the Island of Destiny
The 12-foot is the ring of safety around the island called the Shoreline of Safety. The 8-foot is the RING OF FIRE!

Procedure:

Players throw a rock and sweep a rock with the goal being for the rock to stop completely in the 4-foot but not touching the 8-foot RING OF FIRE!
Alternatively, the thrower can choose to take the shot back to the Shoreline of Safety in the 12 foot or leave it in the top of the 12 foot also in the ring of safety. Play 16 rocks and the highest score wins.

Variations:

Pairs compete against each other (Front End vs Back End or 1 from each)

2 (4?) Teams could compete against each other on the same sheet or on different sheets

Add point values:

- 10 for the Island of Safety
- 5 for the Shoreline of Safety
- 10 for the Ring of Fire

Only play the top half of the house to work on draws above the tee line.
