Last Shot Draw Discussion

With the adoption of the World Curling Federation Rules for all championship play that states there will be no tiebreaker games, Last Shot Draw (LSD)/ Draw Shot Challenge (DSC) results have become a crucial item for teams to practice and execute. Below are several things to consider about this topic.

- Have a plan, practice the plan.
- There is no wrong way to do it.
- Watch the other team practice.
- THE ICE WILL SPEED UP DURING PRACTICE.
- no panic
- Have a schedule of who throws when, partners throw and sweep together. Post it at the hotel, share the document, make the athletes responsible for knowing who is .
- Official observations from Peter:
    - Know the rules about practicing with the wrong color rocks, throwing a LSD with the wrong rocks, throwing the wrong turn, and touching a thrown stone,
- It’s important!!!
